WHAT YOU NEED TO KNOW

To ensure the best possible dining experience, groups of 12 guests or more are required to dine on one of our banquet menus. Our banquet format allows our kitchen and service team to efficiently coordinate and deliver your meals in a timely manner, while maintaining the same quality and experience for other guests throughout the restaurant. These menus are designed to be generous, shared and reflective of the dining experience you receive with our regular menu.

We accommodate dietary requirements and can make adjustments where possible.
